### 3. POLICY PRINCIPLES

3.1 Rates are levied in accordance with the Act as an amount in the rand based on the market value of all rateable property contained in the municipality's valuation roll and supplementary valuation roll.

3.2 As allowed for in the Act, the municipality has chosen to differentiate between various categories of property and categories of owners of property as contemplated in clause 7 and 8 of this policy. Some categories of property and categories of owners are granted relief from rates. The municipality however does not grant relief in respect of payments for rates to any category of owners or properties, or to owners of properties on an individual basis.

3.3 There would be no phasing in of rates based on the new valuation roll, except as prescribed by legislation and in accordance with clause 16 of this policy.

3.4 In accordance with section 3(3) of the Act, the rates policy for the municipality is based on the following principles:

- (a) Equity  
The municipality will treat all ratepayers with similar properties the same.
- (b) Affordability  
The ability of a person to pay rates will be taken into account by the municipality. In dealing with the poor/indigent ratepayers the municipality will provide relief measures through exemptions, reductions, rebates and cross subsidy from the equitable share allocation.
- (c) Sustainability  
Rating of property will be implemented in a way that:
  - (i) it supports sustainable local government by providing a stable and buoyant revenue source within the discretionary control of the municipality;
  - (ii) Supports local, social and economic development; and
  - (iii) Secures the economic sustainability of every category of ratepayer.
- (d) Cost efficiency  
Rates will be based on the value of all rateable property and will be used to fund community and subsidised services after taking into account profits generated on trading (water, electricity) and economic (refuse removal, sewerage disposal) services and the amounts required to finance exemptions, rebates, reductions and phasing-in of rates as approved by the municipality from time to time.

#### 4. SCOPE OF THE POLICY

- 4.1 This policy document guides the annual setting (or revision) of property rates tariffs. It does not necessarily make specific property rates tariff proposals.
